DETAILED ACTION

1. This office action is in response to amendment filed 05/23/2005.

Allowable Subject Matter

2. Claims 1-15, 32-46 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of determining one or more properties of the insulating film using the charge density measurement, the voltage measurement, and the rate of voltage decay, wherein the one or more properties comprise a thickness of the insulating film. The above limitations included in all of the dependent claims in combination with remaining claims limitations is neither disclosed or suggested in the prior art.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ma et al. (US 6,011,404) discloses apparatus and method comprising non-contact type measurement including measuring surface voltage, rate of voltage decay, and charge density.

Art Unit: 2858

Ma et al. did not explicitly disclose obtaining a thickness of the insulating film from these measurements.

Verkuil (US 5,498,974) disclosed apparatus and method comprising non-contact type measurement including surface voltage (column 4 lines 19-21), rate of voltage decay (measuring voltage changes), and charge density (Q_{mobile}) but did not explicitly disclose obtaining a thickness of the insulating material from these measurements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
